## Saket Choudhary

CONTACT INFORMATION	Apartment #13 Homepage: http://saket	Email: skchoudh@usc.edu Homepage: http:/saket-choudhary.me [Google Scholar] [CrossValidated] [Github]	
EDUCATION	University Of Southern California[USC], Los Angeles, USA  PhD Student, Computational Biology and Bioinformatics [2014 - Ongoing]  Advisor: Prof. Anton Valouev  Project: Tools for Motif conservation Analysis http://moca.usc.edu  [Poster] [Abstract]		
	Indian Institute of Technology Bombay[IITB], Mumbai India Bachelor of Technology, Master of Technology, Chemical Engineering [2009 – 2014] Masters Thesis: Pattern Recognition in Clinical Data GPA: 8.47/10		
Honors and Awards	- Provost Fellowship, awarded to outstanding incoming PhD students	[USC, 2014]	
	- Gandhian Young Technological Innovation Award by Indian Institute of Managem Ahmedabad, for designing a low cost water impurity detection device		
	- Institute Technical Special Mention	[IITB, 2012]	
	- Undergraduate Research Award, for developing 'Scilab on Cloud'	[IITB, 2012]	
	- Institute Technical Special Mention	[IITB, 2011]	
	- Institute Technical Special Mention	[IITB, 2010]	
	- Kishor Vaignyanik Protsahan Yojana(KVPY) Fellowship by Department of Science and Technology (DST), Government of India	e [2007]	
	- Homi Bhabha Young Scientists' Gold Medal	[2005]	
OLYMPIADS	- Top 6 to be selected for Indian National Mathematics Olympiad(INMO), selection level exam for International Mathematical Olympiad(IMO)	[2008]	
	- Top 30 in Regional Mathematics Olympiad (RMO)	[2009]	
	- Top 250 in Indian National Physics Olympiad (INPhO)	[2009]	
	- Top 300 in Indian National Astronomy Olympiad (INAO)	[2009]	
STANDARDIZED TEST SCORES	- GRE: Quantitative: 170/170 Verbal: 153/170 Analytical Writing: 3.5/6		
	- TOEFL: Reading: $29/30$ Listening: $28/30$ Speaking: $24/30$ Writing: $28/30$ Total: $109/120$

IEEE, 2013. [Online]

RESEARCH EXPERIENCE

## Tools for Motif Conservation Analysis, PhD Project

May 2015 - Ongoing

Guide: Prof. Anton Valouev Dept. of Preventive Medicine, Keck School of Medicine, USC

Motifs predicted by motif discovery tools can often not be the 'true motifs' and can have significant p-value(or E-values) for even 'false motifs'. We hypothesized that a 'true motif' should exhibit high evolutionary conservation scores. MoCA makes use of PhyloP and Gerp scores to assess the conservation profile of motif bases. We used MoCA to analyze ENCODE Chip-Seq datasets and found that the 'true motifs' (ones which have been validated experimentally) do exhibit high conservation scores, and these are statistically significant when compared to the scores of flanking regions or randomly sampled regions.

MoCA is available as a web-service at http://moca.usc.edu

Source: https://github.com/saketkc/moca

#### Pattern Recognition in Clinical Data, Masters Thesis

Apr 2013 - Jul 2013

Guide: Prof. Santosh Noronha Dept. of Chemical Engineering, IIT Bombay

#### Awarded Outstanding Thesis Award

Multiple methods exist for determining oncogenic 'driver' mutations. These tools often have non overlapping predictions and input format is tool specific. We developed a Galaxy based toolbox to run such prediction tools in parallel with a standard input format. The end results are presented as an intuitive heatmap indicating mutations which are predicted to be drivers by a majority of the tools. The results are summarized in the following preprint: "GalDrive: Pipeline for comparative identification of driver mutations using the Galaxy framework"

In a separate project, we analyzed proteomics data from Glioblastoma patients and predicted a smaller set of marker genes. This resulted in the following publication: "Autoantibody Profiling of Glioma Serum Samples to Identify Biomarkers Using Human Proteome Arrays".

Automated Mining of Reaction Patterns May 2012 - Jul 2012, Jan 2014 - Mar 2014 Guide: Dr. Syed Asad Rahman Dr. Dame Janet Thornton Lab, EMBL-EBI, Cambridge(UK)

EC-BLAST is a novel tool to compare enzymes and map reactions. We used clustering based approaches to highlight misclassified enzymes in the established enzyme classification system(EC).

We developed a web-service that facilitated automated job submissions to back end clusters at EBI. This resulted in significant reduction in job runtime.

Next Generation Sequencing, Supervised Learning Project

Guide: Prof. Santosh Noronha

Dept. of Chemical Engineering, IIT Bombay & ACTREC

We developed automated pipelines using Python to analyze whole genome data of cancer tumors. As part of the project, I also contributed BWA and samtools wrappers to Biopython, a Python based open source library for bioinformatics.

Scilab On Cloud May 2012 - Jul 2012
Guide: Prof. Kannan Moudagalya Dept. of Chemical Engineering, IIT Bombay

Scilab is an open source software for numerical computation and is primarily command line/GUI based. We developed a back-end that allowed running Scilab through browser much like the modern day IPython notebooks. This enabled accessing Scilab remotely, even on low configuration devices.

Presented at: IEEE Conference Cloud Computing and Big Data (CloudCom-Asia), 2013

### Professional Experience

Google Summer of Code 2015 | Mixed Effect Models for statsmodels May 2015 - Jul 2015 Student Contract Developer

- statsmodels is a Python based library for statistical modeling
- Implemented IPython based notebooks illustrating varied applications of Mixed Effects Models
- Implemented likelihood ratio tests
- Progress Report: http://statsmodels-mlm-gsoc2015.blogspot.com

## ${\bf Google~Summer~of~Code~|~BioJavascript}$

Jul 2014 - Sep 2014

Student Contract Developer

- BioJavascript is an open source library to facilitate biological data visualization
- Developed 'Human Genetic Variation Viewer', a d3.js based component to visualize genetic variations from SNP databases
- Demo: http://saketkc.github.io/biojs-genetic-variation-viewer

# Google Summer of Code | Galaxy Project

Jul 2013 - Sep 2013

Student Contract Developer

- Galaxy Project is an open source web-based platform used for reproducible bioinformatics analysis
- Implemented 'nested workflows' that allows users to run a workflow inside a workflow, obviating the need to replicate steps
- Added 'edit on the go' functionality to edit default parameters before runtime
- Progress Report: http://galaxy-gsoc2013.blogspot.com

# Google Summer of Code | Connexions Project

Jul 2012 - Sep 2012

Student Contract Developer

- Developed a Python module to allow embedding slide-shows in online notebooks
- Implemented the functionality to add user defined quiz as an additional achievement
- Progress Report: http://oerpub.github.io/oerpub.rhaptoslabs.slideimporter/

SlideShare

May 2011 - Jul 2011

Software Engineering Intern

- SlideShare is an online platform to view and upload presentations
- Developed a Ruby on Rails module to allow administrators to suspend defunct users & slide-shows

#### Other Projects

## Image Analysis of Tuberculosis samples

Jan 2013 - Apr 2013

Supervised Learning Project, Collaborator: Hinduja Hospital, Mumbai

- Used image processing algorithms to detect probable cases of TB from sputum images
- Developed a user friendly GUI to aid histopathologists thus decreasing the overall delay in report

#### Pratham, Student Satellite Program

May 2010 - Oct 2010

India's First Students' Satellite Team, IIT Bombay

- Member of communications sub-system, involved in hardware testing

### Digital Audio Player

May 2010 - Jun 2010

Electronics Club Summer Project, IIT Bombay

- Implemented the FAT32 file system code for reading files stored on a SD card

### TEACHING EXPERIENCE

- Teaching Assistant, Computer Programming and Utilization

Fall 2011

- Teaching Assistant, Artificial Intelligence in Process Engineering

Fall 2013

## Positions of Responsibility

## Web Manager, UG Academic Council

Jul 2012 - Apr 2013

- Initiated a number of web portals, thus improving online accessibility of academic resources
- Awarded Institute Organizational Award

#### Institute Internship Coordinator, Practical Training Cell

Jul 2011 - Apr 2012

- Initiated industry & university interaction for internships

## TechniC, Core Group Member

Jul 2010 - Apr 2011

- Organized institute wide technical events
- Mentored students in technical competitions
